### Basic Concept

1. We can serve up to 132 children and are purchasing supplies for such. We will accept 8 to 12 years of age.
2. Each instructor will provide basic instruction for their field of expertise. The goal is that each student will leave class with one completed art project to take home as a holiday gift and that each child will leave with enough art supplies to continue working with that media on their own. We would like the children to leave having enjoyed being a maker and also with supplies to continue art projects at home. We will also be providing a grab bag of miscellaneous art making supplies for each child.
